**FRAGRANCE ADD IT TO YOUR GARDEN
AT A COST MARVELOUSLY LOW!**

Do you remember the FRAGRANCE of your mother's roses, when the dew was still on them?

(Pages 3, 4 and 5 show how you can match it with roses larger in size, more brilliant in color, more perfect in form, more profuse in continuous bloom.)

—the spicy aroma of her SWEET SHRUBS, SYRINGA and LILACS?

(Page 2 tells how to get the fragrant shrubs of most recent development, at present low cost.)

—the alluring scent of the ENGLISH PRIMROSE, or the all pervading FRAGRANCE of the FLOWERING TREES, and graceful VINES?

(See on page 6 and 7 the best fragrant perennials for this portion of America; on page 8 the description of the most famous of all American Flowering Trees, the Fall blooming FRANKLINIA, which has been confined to the estates of the wealthy but is now made available to all at our low price.

Can you afford NOT to add FRAGRANCE to your garden, when such low prices are offered?

FRAGRANCE is the poetry of the flower garden—the fine heritage which unfortunately has been sacrificed on some varieties in the race for immense size, or vivid coloring, or perfect form.

A costly sacrifice for the garden lover—for the fad for size brought on the vogue of large costly catalogs, with immense color pictures—a cost which the nurseryman must pass on to you, or go broke.

Collins Nurseries—founded in 1860—is getting back to first principles for 1933. We are issuing no large costly catalog; we pass that saving and more on to you as our prices prove. Yet this compact **SPECIAL OFFER FOLDER** contains more definite information than the largest catalog you ever saw on dependable varieties of ROSES, SHRUBS, PERENNIALS, TREES, etc., which combine alluring FRAGRANCE with perfection of form and brilliancy of color in blooms of gloriously large size.

To all these advantages, add the advantage of buying from nurserymen whose record for fair dealing extends back for three generations. You get superlative value in their sturdy, well rooted, dependable nursery products—many of which are priced in this folder at less than cost of production, because of overstock due to the economic conditions now fortunately passing.

FOR PROMPT ACTION you get a fine 2 yr. old field-grown bush of Talisman Rose
